

SALIDO

Easily Streamline Operations with Salido

Simplify your day-to-day with modern, connected restaurant technology

Salido offers a flexible platform designed by hospitality professionals to grow with your business so you can unify operations, increase efficiency, and most importantly, focus on your guests.

How it Works

Salido brings every part of your restaurant together through one connected system, from front of house to back of house, with tools that make running your restaurant simpler and smarter. Our core solutions:

Point of Sale

Fast, cloud-based POS that keeps orders and payments moving seamlessly. Built for hospitality with reliable communication, advanced printing, and intuitive design.

Payment Solutions

Backed by North's 30 years of payments expertise, our secure, integrated system offers competitive rates and reliable processing to maximize revenue and protect margins.

Check Management

Effortless order and checkout management for faster, more efficient workflows. Easily handle check and item-level actions with intuitive, fast checkouts and flexible gratuities.

Menu Management

Streamline ordering for faster, smoother service. Dynamic menu flexibility lets you adjust prices on the fly, while smart coursing tools manage prep and serve times to keep seamless operations.

Bridge Web Portal

Salido's back-end dashboard for complete control. Manage data, settings, and user permissions from one place, giving your team secure access to the tools they need to run efficiently.

The Result

◆ **Simplified workflows and less manual work**

◆ **Faster service and improved team efficiency**

◆ **One connected platform that grows with you**

Be the first to experience the future of hospitality. Learn about how to easily streamline operations today at newsalido@north.com.
